

Hope for Korah's 2022 Calendar

Each month captures simple moments of everyday life in Korah and the artistic quality of the photographs makes a lovely wall decoration.

Every purchase helps to break the cycle of poverty!

Here is what people had to say when they received last year's calendar...

"Heartfelt thanks for the wonderful Calendar! It is so moving, beautiful and inspirational. Going through the pages and reading the messages brought tears of joy - Hope is evident on every page!"

- Vera from WA

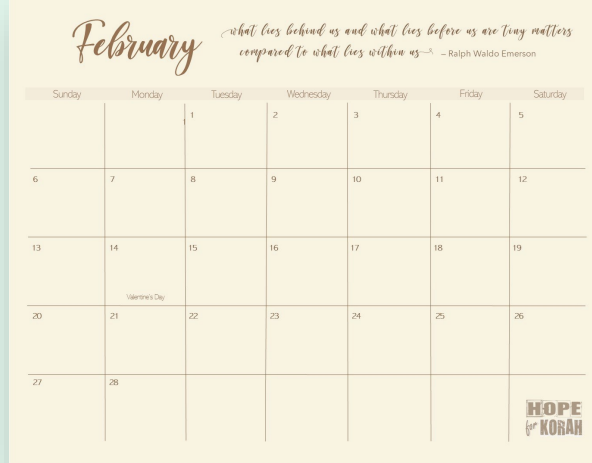

"I just picked up the mail... what a beautiful calendar! Thank you. The quality is so good and it is shrink wrapped to keep firm."

- Gloria from AB

"This calendar reflects the resilient and beautiful people of Korah; It's a visual reminder that each of us has the privilege of praying, celebrating and remembering.

Every day is a gift!"

- Connie from BC

HOPE for KORAH

Summer 2021

Hope for Korah News

HFK Self-Help Group Outing to Unity Park in Addis.

A new milestone has been reached - it is our tenth year serving in Korah! As we reflect back and see all that God has done we are thankful for many changes, but especially for each person He has brought through our doors and for every supporter who has helped to change their lives. We are also excited that our Executive Director Eve Pohl will finally be heading back to Ethiopia with a small team in August. It has been 1 1/2 years since our last trip and we anticipate a great reunion. A big highlight will be to celebrate these 10 years and look towards the future with our staff and families, and then to return home and celebrate with everyone here on October 30th at *An Evening for Korah*. We hope you will join us!

Ethiopian Coffee ceremony with our HFK families.

ANNIVERSARY

Ten Years!

We have so much to celebrate!

Thanking God for these last ten years in Korah.

Celebrate with us!

Save the Date - October 30th

An Evening for Korah

AN ONLINE & IN PERSON EVENT

Bosana used to beg on the streets to provide for her family and blind husband with leprosy. Today she has her own marketplace selling coffee related items. Her girls attend college, one has graduated and works in accounting to help support the family. Bosana is thankful and greatly values the hand-up and support she has received.

In May 2011 the Berta Breakfast Program served its first bowl of porridge to 50 children. We quickly discovered Ethiopian children much preferred eating with their hands and so Berta pancakes were created. Fast forward 10 years... Two months ago HFK launched a new program at a local school, targeting 120 undernourished kindergarten and special needs children. Being concerned for their development, the school asked HFK to partner with them and we now provide a highly nutritious breakfast consisting of fortified pancakes, a protein, fresh vegetables or fruit (above right). Add to this, the 225 kids already being served at our HFK compound six days per week... and that is a lot of pancakes!!

B&W Photo taken in 2011 - Marta's family scavenging at the dump. One child lived with relatives in the countryside because they couldn't afford to feed her.

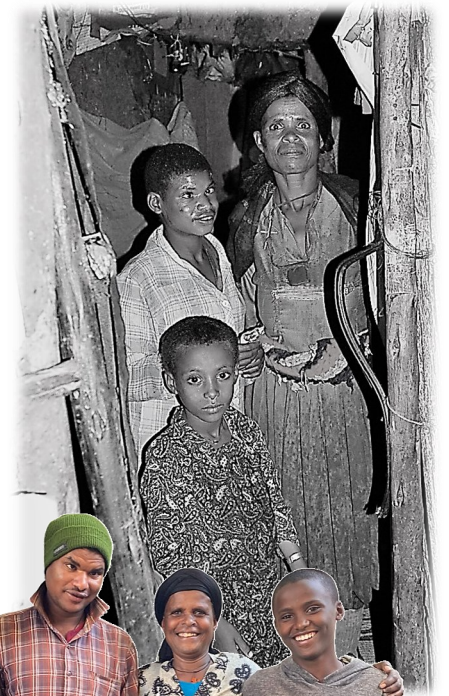

TEN YEARS IN KORAH *Then and Now*

Looking back at some of our first sponsored families and programs and where they are today.

Ten Years of Working Together for Hope!

Meeting Beylanesh and her children was the catalyst that led to the founding of HFK (photo on right). At that time they were living in a dark hovel with nothing, not even a blanket or food. Beylanesh is disabled and has only one partial foot. She scavenged at the dump and begged to survive. Her 14 year old with special needs had never been to school, her baby was very sick. She felt hopeless.

Today their lives have changed - all three kids are in school and Beylanesh is a role model to many of our women. She is motivated to change, and is the president of the Basket Weavers' Association providing income through making baskets and spinning cotton for a local store. Soon she plans to start a business selling charcoal. She has much hope for the future!

Our daycare began with a simple table and bench. Today we are thankful that many can be blessed by our much expanded daycare center.

Believe it or not this is our same youth compound in 2011 & today!
